Rock Paper Scissors Dataset

Introducing Rock Paper
Scissors – A multi class
learning dataset

Abstract

Rock Paper Scissors is a dataset containing 2,892 images of diverse hands in Rock/Paper/Scissors poses. It is licensed [CC By 2.0](#) and available for all purposes, but it's intent is primarily for learning and research.

Overview

Rock Paper Scissors contains images from a variety of different hands, from different races, ages and genders, posed into Rock / Paper or Scissors and labelled as such. You can download the [training set here](#), and the [test set here](#). These images have all been generated using CGI techniques as an experiment in determining if a CGI-based dataset can be used for classification against real images. I also generated a few images that you can use for predictions. You can find them [here](#).

Note that all of this data is posed against a white background.

Each image is 300×300 pixels in 24-bit color

Examples

Here are a few examples showing some of the poses, and the diversity of hand model used.
